

lightforce®
therapy lasers

OUR PROMISE

INNOVATION

LightForce moves the industry forward in science, technology and research.

Science

Laser therapy is a medical treatment that uses focused light to stimulate a process called photobiomodulation (PBM). During PBM, photons enter the tissue and trigger a biological cascade of events that leads to an increase in cellular metabolism, which can decrease pain and inflammation and accelerate the healing process.

Technology

LightForce seeks to push the envelope through our development of laser technology. Our in-house team of innovators rigorously researches and tests to innovate technology that impacts the world of photobiomodulation.

Our exclusive innovations in laser technology include:

-  LightForce® Massage Ball Treatment Head
-  Empower IQ™ Deliver System
-  Influence® Technology

Research

LightForce leads the way in the field of photobiomodulation through our commitment to research. LightForce actively collaborates with teaching institutions, clinicians, and scientists around the world to validate current and discover new applications for laser use.

OUTCOMES

LightForce provides evidence-based, scientifically proven treatment solutions that produce results.

Treatment Solutions

Photobiomodulation is used to treat acute and chronic conditions as well as post-activity recovery. It is also used as an adjunct to prescription drugs, substitute for surgery, pre-surgery treatment, post-surgery treatment, and long-term pain management system.

Clinical Applications

Head

- Headaches
- TMJ pain
- Tissue healing post tooth extraction

Hands & Feet

- Achilles tendon pathology
- Diabetic Neuropathy
- Morton's neuroma
- Neuropathy
- Plantar fasciitis
- Osteoarthritis related foot and ankle pain

Full Body

- Myofascial pain
- Tendinopathy
- Neck and back pain (chronic and acute)
- Lymphedema
- Muscle strain/pain
- Joint Swelling
- DOMS (Delayed Onset Muscle Soreness)
- Optimizing muscle performance (ergogenic aid)
- Osteoarthritis related pain

RELIABILITY

LightForce offers a history of long-standing, high quality performing platforms. Your investment is protected through unparalleled service and support, loyalty programs, and continuing education.

Customer Support

LightForce's in-house customer care team is available to troubleshoot questions regarding the laser's hardware and software. If lasers ever need to be serviced or repaired, we offer a laser loaner program to keep our customers treating. LightForce clinical staff are available as a resource to answer specific treatment questions.

Investment Protection

LightForce's reputation for providing upgrades and updates is unmatched. Repairs, parts, and warranties are always available on all our platforms. Our longevity is a testament to the loyalty we demonstrate to our customers.

Performance

LightForce Therapy Lasers are built specifically for rehabilitation and pain practices and are tested thoroughly to meet certified safety standards. Our performance history is second to none and is exemplified by our support for all our platforms.

“Our outcomes have significantly improved since using deep tissue laser therapy. We get a better result sooner- meaning that patients feel better faster. I think they like it, so they come in more often, and they ask for it.”

Kevin Wilk, PT, DPT

**Associate Clinical Director of Champion Sports Medicine in
Birmingham, AL**

“Product support is best in the industry.”

Stephen Heilman, DC

Heilman Chiropractic and Spinal Decompression in Escondido, CA

SUCCESS

LightForce's implementation program includes customer training, clearly defined profit plans, and marketing support.

Customer Training

Every LightForce customer receives in-person training from a LightForce representative at their location as well as ongoing continuing education about therapeutic dosing, treatment protocols, and indications.

Profit Plans

Having helped thousands of customers institute laser therapy programs into their practices, LightForce's team of practice building experts is available to help every customer with their individual success plan.

Marketing Support

LightForce offers practice marketing tools and support to help implement an exciting, successful laser program.

FEATURED PRODUCTS

Find the laser that's right for your practice. LightForce Therapy Lasers are developed from our team of researchers and Ph.D's in the field of laser therapy. All of our laser products are manufactured by LightForce in the United States and are rigorously tested for safety and consistency.

XLi

Treat larger, deeper areas and provide faster pain relief with real time dosing feedback. Our most powerful laser ever, the LightForce 40W XLi impacts deep tissue faster for quick pain relief. The LightForce smart hand piece and onscreen recommendations increase dosing accuracy and help technicians treat with confidence.

Speed

Speed Too Fast

Speed Too Slow

XPi

25W

Smarter than your average laser. The 25W LightForce XPi gives real time visual and haptic feedback, allowing clinicians to provide consistent, accurate treatments. The XPi's built-in intelligence tells users which treatment heads are acceptable or not recommended for different power levels, which provides for safer treatments and less guesswork from clinicians.

FXi

15W

Treat quickly and consistently on the go. The 15W LightForce FXi is ideal for practices or athletic trainers needing to treat in multiple locations in or out of the office. Easily transportable, the lightweight FXi quickly impacts pain while weighing in at only 7 lbs.

With an estimated 1 million+ treatments per month worldwide, LightForce patients attest to the immediate pain relief and drive demand for the most effective therapy lasers on the market. LightForce Therapy Lasers can be found in over 250 professional and college athletic training rooms and are the preferred modality when treating the world class athlete. Grounded in scientific evidence, LightForce is the true market leader in laser therapy.
