

Showing Your Patients is Easy!

1. Display the Cervipedic Neck-Relief™ in your office.

Place a sample unit along with some brochures where your patients can see and freely examine it for themselves.

TIP: Use our acrylic display stand and make your own custom sign. i.e. "What can I do at home for my neck pain in between visits?" you may want to also show the price

2. Have ALL of your patients try it.

Anyone who has ever suffered from neck pain, neck stiffness or loss of cervical curvature could benefit from using the Cervipedic Neck-Relief™ every day.

TIP: Have them lay on it before an adjustment. It will help relax the neck and shoulder muscles, making the cervical adjustment much easier.

3. Explain the benefits of the Cervipedic Neck-Relief™

- * Support your treatment at home
- * Relieve neck tension and stiffness
- * Recondition their cervical curvature
- * Increase range of motion
- * Hydrate cervical discs

4. Explain the features of the Cervipedic Neck-Relief™.

Show your patients how the Neck-Relief™ cradles the head and neck and how to operate the different levels of support

5. Explain the different places they can use the Cervipedic Neck-Relief™.

Let your patients know they can use the Neck-Relief units not only laying down, but also upright. Like on their recliner at home, as a passenger in the car, in the airplane while traveling, on their couch at home while watching TV, etc...
